Gentlemen,

I hope you are all doing well. I believe I have spoken with each of you separately regarding my desire to implement a property maintenance code, similar to the Town of Pamplin. I'd like to work on having that code section drafted so that I can present it to council for comment. I imagine we'd seek the support of the Planning Commission prior to a council vote to amend and adopt the code.

Please let me know your thoughts on this amendment. I appreciate your help!

Best,

**Nathan Simpson**

Town of Appomattox

Council Member
